NATIVE APP DEVELOPER

Self-driven and results-oriented technology professional with strong expertise in web and mobile application development, alongside foundational knowledge of GST, Customs Law, Income Tax, and Company Law. Currently pursuing an MCA at Manipal University with a focus on integrating technical innovation into practical business solutions. Skilled in React Native, React.js, NativeScript, Flutter, Python, Node.js, Go, MongoDB, and API development. Proven ability to design and deliver scalable, user-focused applications, with demonstrated success in leading and contributing to high-impact projects. Winner of prestigious hackathons, including the Inter-College Hackathon by PCTE Group of Institutes and Web-E-Stan 4.0 by LPU, showcasing strong problem-solving capability and performance under pressure. Committed to continuous learning, adaptability, and achieving measurable outcomes.

STRENGTHS AND EXPERTISE

React Native

MongoDB

Flutter

JavaScript

React.js

MySQL

Node.js

GoLang

API Development

EDUCATION

Manipal University

September 2025 - *

Master of Computer Application

Currently, I'm pursuing my Master of Computer Application from Manipal University, Jaipur.

Year of Completion: 2027

Lovely Professional University

August 2022 - July 2025

Bachelor of Computer Application

I completed my Bachelor of Computer Applications (BCA) from Lovely Professional University, Punjab, where I've gained a strong academic foundation in programming, web and mobile development, and computer science fundamentals. My coursework, combined with hands-on projects, has equipped me with practical experience in technologies such as React.js, Node.js, MongoDB, Flutter, and API development.

Accomplishments:

- **Winner – Inter-College Hackathon**, organized by **PCTE Group of Institutes, Ludhiana**

Secured 1st place by building an innovative solution under time constraints, showcasing problem-solving and teamwork.

- **Winner – Web-E-Stan 4.0 Hackathon**, conducted by the **Department of Computer Science and Engineering at LPU**

Developed a full-stack application within 24 hours, demonstrating strong technical and creative thinking skills.

- **Founded InnovXus**, a tech-driven initiative student organization during my BCA to promote innovation through **Hackathons, Cybersecurity**, and **workshops**, impacting 500+ students.

- **Lead Developer – IxBooking**

An event ticket booking platform tailored for university environments. Led the development of features like device-based dynamic pricing, user authentication, and integrated payments.

🏆 **Awarded the "Visionary Nation Builders Award" at College Youth Ideathon (CYI) by SBI Foundation, held at IIT Delhi** – recognizing the platform's innovation and impact.

MAJOR PROJECT

- **Form2Mail - form2mail.dinestx.com**

Form2Mail is a lightweight web solution that captures HTML form submissions, emails them to form owners, and securely stores entries in Google Sheets for easy tracking and management.

Tech Stack: Node.js, Express.js, EJS and MongoDB

- **Client Project – [AnveraEsport](#)**

Anvera eSports is a competitive gaming platform hosting tournaments, showcasing gameplay highlights, and building a community where players join epic matches and strive to become legends in global esports.

Tech Stack: Next.js, Node.js, Express.js, and MongoDB

- **Music App - [Auxify](#)**

AuxiFy App is a React Native mobile project that implements a music-player experience, providing users with native Android/iOS playback and UI built using JavaScript and mobile components.

Tech Stack: React Native, Node.js, Express.js, and MongoDB

Dhwarka H/S School
Intermediate (12th Grade)

May 2020 - 22

Completed Intermediate with focus on Science (Physics, Chemistry, Biology, Computer Science) from Dhwarka H/S School, Patna.

Year of Completion: 2022

P.P.Public School
Matriculation (10th Grade)

May 2018 - 20

Completed Intermediate with focus on Science (Physics, Chemistry, Biology, Computer Science) from Dhwarka H/S School, Patna.

Year of Completion: 2020
